

SECURITY SOLUTIONS: Locking Tambour Doors

The Challenge

A private medical clinic was dealing with the loss of supplies from their treatment rooms. Supplies went missing on a regular basis and valuable time was spent during patient treatments trying to find the missing materials.

The Solution

Adding locking tambour doors to the front of the existing storage shelves. This allowed the storage shelves to be covered and completely secured, while at the same time allowing quick and easy access to the supplies when needed. Along with security the Tambour doors added a clean professional look to the treatment rooms.
