

Pharmaceutical Overload: Too many pills

The Challenge

The explosion of new medicines, pharmaceutical remedies and other wonder drugs has never been greater than it is today. Yet many pharmacies, both stand alone and within hospitals walls, have seen little or no growth in their allocated floor space. In some cases allocated storage space has actually diminished, as needs by other departments are prioritized. Under these trying circumstances, **maximizing the capacity** of any available storage area is a must!

The Solution

Mizer mobile shelving has been selected as the space solution for many pharmacies.

1. **Capacity:** Maximizing all the useable space is a cinch with **Mizer** mobile shelving. In many case a 250% increase in capacity is attained, all within the existing footprint of the area addressed.
2. **Order:** The combination of adjustable shelving, heavy duty drawers and organized bins allows for multiple storage configurations that are easy to adjust and reconfigure.
3. **Quality:** A reflection of quality, all **Mizer** mobile shelving has a lifetime warranty. Both the manual and mechanically operated systems are user friendly and provide fast easy access to supplies.
